

FOR SALE - MIRAGE 26

Telios is a 1979 Mirage 26. She has a fixed keel measuring 4.3 feet. I am the original owner and the boat has been sailed primarily in fresh water but had three weeks at the coast in the summers of 1980 and 1981. The boat has been well cared for and has spent her winters indoors in a heated space. She is currently in her winter environment and can be viewed there by appointment.

Telios has a 6' 1" head room in the cabin and will sleep 2 in the V berth, 2 in the port side berth and 1 in the starboard side berth. She has a 2 burner alcohol cook top and a large ice box. She is equipped with two one year old batteries. Telios has a recycle head which must be pumped out. The pump out system is included.

Telios has a two year old Harken furling gear, a twin aluminum track forestay and a furling genoa. The main sail can be double reefed, and she also has a 150% and 110% dacron genoa and a 153% mylar genoa. She also has a full spinnaker and a mylar spinnaker staysail.

Her instruments are a one year old Signet Marine depth sounder and knotmeter. She also has a newer Platissimo compass.

Telios comes equipped with a danforth anchor and adequate chain and nylon rode. Her engine is a long shaft 15 horse Evinrude which will recharge her batteries while running.

Telios sits on a trailer which had the electrical system redone in the last couple of years. The trailer has never been in salt water and has not been in fresh water for many years as Telios has been launched and retrieved by the use of a crane.

The asking price is \$27,000.00. Please contact Ed McIntyre at 780-953-2235 for a viewing.
